The Experts in Wireless Nurse Call

## VisionLink II

Wireless Nurse Call System

### CLLOUD DASHBOARD

Powerful data for *all* your facilities – **In one place.**

The Vision Link II Cloud Reports License empowers healthcare teams to move beyond basic call notifications and toward meaningful insights. Our new cloud reports provide real-time visibility and powerful analytics for your wireless nurse call systems at all of your facilities in a single dashboard. Designed for healthcare environments, it transforms call data into actionable insights that help improve patient care, staff responsiveness, and operational efficiency—anytime, anywhere.

The Vision Link II reports dashboard is a secure, web-based platform that collects and analyzes data from all of your wireless nurse call systems throughout your organization. By centralizing information in the cloud, administrators and clinical leaders can monitor performance, identify trends, and make informed decisions without the need for on-site servers or manual reporting. Accessible from any authorized device, the dashboard ensures transparency, accountability, and continuous improvement across your facility and organization.

Systems Technologies has been named  
**Wireless Nurse Call System of the Year 2026**  
By Healthcare Tech Outlook Magazine

## Real-Time Monitoring

- Live visibility into active & completed nurse calls.
- Status updates on response times & call resolution.
- Immediately identify workflow bottlenecks.

## Performance Analytics

- Identify trends in staff responsiveness.
- Compare performance across units, floors, or departments.
- Support data-driven staffing and workflow decisions.

## User-Friendly Dashboard

- Clean, intuitive interface designed for healthcare teams.
- Visual charts and graphs for quick interpretation.
- No technical expertise required.

## Comprehensive Reporting

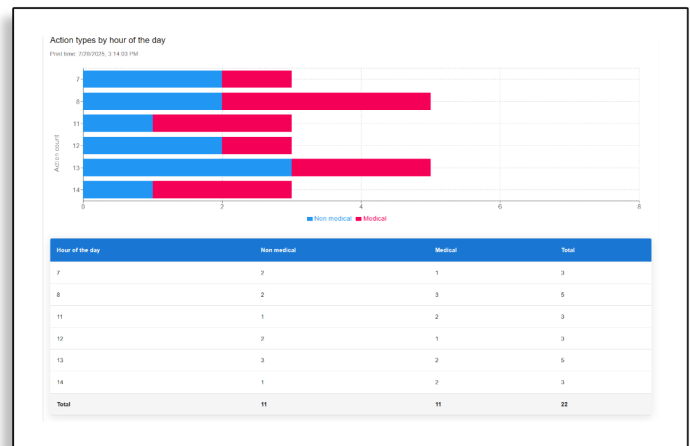

- Detailed reports on call volume, response times, and escalation events.
- Customizable time-frames (shift, day, week, or month).
- Exportable reports for audits, compliance, and internal reviews.

## Benefits for Healthcare Facilities

- Increase staff accountability with transparent performance data.
- Support quality improvement initiatives and compliance efforts.
- Reduce administrative workload through automated reporting.

## Enhanced Key Features

- Personalized Dashboard for company-wide, facility-specific, and custom reporting needs.
- Flexible Analytics to filter and segment data to uncover meaningful insights.
- Scalable visibility to easily move from executive-level summaries to detailed operational data.
- Saved Views & Reports for quick access to frequently used analytics.

**Wireless devices** such as pendants, pull stations, push button stations, bed stations, and more are available.
